Nebraska Voters for Companion Animals

Nebraska Voters for Companion Animals (NVCA) has accomplished one of the most important tasks and that was to develop the mission statement for the group.

The Nebraska Voters for Companion Animals mission statement is: *To become a unified voice for promoting the humane treatment of companion animals through legislation, education and advocacy.*

NVCA has been meeting monthly. The group is currently working on developing content and design for their website. Talking points for the group have been written and are going through their first round of editing.

One goal of the group was to develop a database to document Nebraska breeder dogs when they arrive at the various rescue groups. The database has been developed with about 100 rescued dogs documented.

For more information on the group, contact Pauline Balta, 402-423-6926, or pbalta@aol.com.

Trap-Neuter-Return Update

A "feral" cat is defined as an undomesticated, wild cat or a house cat that has strayed and reverted to a wild state. Every community possesses feral cats, which provides vital services to their community by reducing rodent populations.

There are no provisions at the current time, within Lincoln's ordinances, that allows the citizens of Lincoln to Trap-Neuter-Return or provide for the managed care of feral cats. Lincoln Animal Ambassadors has drafted a proposed ordinance titled *Managed Care of Feral Cats*, and are working diligently with other nonprofit agencies, city leaders, and city agency managers for the passage of this ordinance.
